### Fellow's Compound Syrup of Hypophosphites.

St. John, N. B.

Mr. James I. Fellows, Manufacturing Chemist, Sir:—For several months past I have used your Compound Syrup of Hypophosphites in the treatment of incipient Phthisis, Chronic Bronchitis, and other affections of the chest; and I have no hesitation in stating that it ranks foremost amongst the remedies used in those diseases. Being an excellent nervous tonic, it exerts a direct influence on the nervous system; and through it, it invigorates the body.

It affords me much pleasure to recommend a remedy which is really good in cases for which it is intended, when so many advertised are worse than useless. I am, sir, yours truly,

## NEWS OF THE MORNING.

Count Schvaloff is sick.

Over 2,000 lives were lost by the floods in Spain.

Utah levies an assessment of \$2 per share, and Rustler (of Bodie) one of 10 cents.

The benefit tendered Killook by San Francisco Workmen Tuesday netted handsomely.

The Mayor of Liverpool has taken active steps to prevent Mormon converts from leaving that port.

Six negroes shot a Mr. Johnson near Memphis and outraged his wife, leaving her in a critical condition. The rascals escaped.

M. J. Henley, the Virginia insurance man, has filed a petition of bankruptcy. Losses in stocks is the primary cause. The failure is a very heavy one.

Some one maliciously misplaced a switch on an Ohio railroad yesterday, and a passenger train was thrown down an embankment and killed several passengers.

In the case of Blair, the New York bank teller, tried for killing his coachman, Armstrong, the jury, after four days' deliberation, found a verdict of not guilty.

The charges of riot and conspiracy against Kearney and other prominent agitators in San Francisco, have been dismissed, a conviction being regarded as impossible.

The provisional government started in Sitka last August has ceased to exist, the officials finding it impossible to carry it on, owing to the want of legal authority. The miners are favorable to starting another form of government.

## THE TREASURY DEPARTMENT PAYING OUT GOLD.

The Treasury Department became a member of the New York Clearing House on January 1st last. Up to the first of this month all government balances through the Clearing House have been settled in United States notes. Since the first of the present month the total balances paid by the Sub-Treasury at New York through the Clearing House amounted to \$15,241,000. Of this sum \$5,000,000 and all checks for called bonds, \$2,500,000, have been paid in gold at that point, which makes the total amount of gold paid out at New York since the first inst., \$7,500,000. This payment of gold, it is said by the Treasury officials, will last as long as the heavy receipts of gold from abroad and the scarcity of notes continue. While the \$7,500,000 was being paid out, about \$4,000,000 in gold was received at the Treasury department, making an actual increase in the gold circulation of more than \$3,000,000, inclusive of the \$200,000 recently shipped from the Mint by order of the Secretary.

**A CAUTION REGARDING POSTAL CARDS.**—A long standing order of the Post Office Department has required that all postal cards having any portion of the message written on their face should be treated as unmailable. First Assistant Postmaster General, Tyler has rescinded this order to the extent of holding that such writing shall not render them unmailable per se, nor prevent their being mailed unless it makes the address illegible. The public is cautioned, however, that by writing any portion of the message on the face they incur the risk of the card being delayed or misdirected.

**A LAND FLOWING WITH MILK AND HONEY.**—A private letter from Illinois to a gentleman of Washington City states: "Came just back from a little run to Northern Dakota and those new lands in the valley of the Red River of the North, about which Gladstone has been writing. I found them fertile, full of promise and worthy of all that has been said in their favor. Many happy and prosperous homes will be founded there. About 5,000,000 bushels of fine wheat coming to market this year along the Northern Pacific Railroad makes us ask whether, after all, Jay Cooke was so very much mistaken."

The Smithsonian Institution reports that Professor Petrus, of Clinton, announces the discovery by himself of a planet of the eleventh magnitude in one hour, no minute, right ascension, one degree and twenty minutes north declination, with a daily motion of five minutes south. The Professor must have made a mistake. It was only a reflection from the gigantic brain of the Virginia Chronicle man.

The people of the North are tired of sectional issues—so tired of them, in fact, that they propose to settle them "between now and 1881 so that they will stay settled, until the South tires of a 'solidity' that compels the solidarity of the North."

## THURMAN ACT OPINIONS.

A Washington press dispatch announces the filing on Monday afternoon of the opinions of Chief Justice Waite, and Justices Strong and Field, in the railroad cases involving the constitutionality of the Thurman Act. These cases were decided, and the decisions announced on the last Monday of the last term, but owing to the great pressure of business, neither the majority of the Court nor the Justices who dissented were able to prepare written opinions in time to be delivered when the decisions were rendered. Chief Justice Waite's opinion in favor of the Act is sustained by a majority of the Court. The dissenting Judges are Bradley, Strong and Field. The latter gentleman is well known on this Coast, and but a few weeks ago the Virginia Chronicle came out in favor of his nomination for President, by the Democrats. It will now be in order, Democrat though he is, for the Chronicle to denounce Judge Field as a "fool" and "hireling" of the Central Pacific and Union Pacific Railroads and that he has been bought with the money the railroads have stolen from the people. Judge Field, in the matter, and Commissioner Canavan, in the Storey assessment business, ought to have known the displeasure they would cause the reform sheet of their party, by their conduct. Let us have no more of it, gentlemen.

## NUTS TO CRACK.

Senator Schultz of Storey a Democrat, was one of the Senate Committee on Railroads, and reported against the passage of the Lewis bill, and voted for the Haines substitute. Senator Westfield, Democrat, of Lyon County, voted against the Lewis bill and for the Haines substitute. Had these two gentlemen voted opposite the substitute would, not have been adopted. Yet the Chronicle has failed to do its duty and denounce these men as railroad "tools" and "hirelings," and assert that they fell before the awful big "sack." The Chronicle is making a great howl, but it only barks at Republicans. Do the people understand its dirty little game?

## THE CALIFORNIA LEGISLATURE.

The Call says: "From a classification of the members of the next Legislature, it appears that the Republicans will have a majority in both houses, and with all the other parties combined against them, there will be a tie in the Assembly and a Republican majority of four in the Senate. In the latter body there will be 21 straight Republicans and two New Constitution Republicans, 10 Democrats of various kinds, and 9 Workingmen, giving the Republicans a plurality of 13 and a majority of 4. In the Assembly, there will be 37 straight Republicans, and 3 who received nominations from other parties, 10 Workingmen, and 4 Independent and Union members. This will give the Republicans 40 members and a majority of four over the W. P. C. and Democrats, and with the four Independents voting against the Republicans there will be a tie. On strict party lines being drawn the Republicans will have a plurality of 21. As none of the parties in the minority can accomplish much working alone, it is probable that the Workingmen and Democrats will vote together, even if they do not work in the same relation. The complexion of the two Houses will give the Republicans both organizations, with possibly a compromise Speaker for the Assembly, in case the other parties combine to beat the Republican put forward."

## ORMSBY, STOREY AND EUREKA.

The total valuation of property in Ormsby county is \$2,463,275; real estate, \$1,585,291; improvements, \$15,005; personal property, \$867,879. This is an increase of \$139,552.26 over 1878. Storey shows a falling off of \$120,000; her total valuation for 1879 is \$5,621,444. Eureka returns \$3,537,074.40, an increase of \$370,000 over 1878.

## CIVILIZATION IN MINING REGIONS.

The New York Tribune thinks one of the most interesting features in the development of the western mining country is the rapid progress of mushroom towns in the appliances of civilization. The spectacle of the quick growth of schools, libraries, churches and newspapers in mining camps that have sprung up almost in a day, is striking and encouraging. Either common report has done injustice to the gold and silver hunters of past generations, or these things have not been characteristic of the former settlements of adventure in the far west. The letters of a staff correspondent of the Tribune, who is now writing from Montana, have described many instances of this energetic tendency of new towns toward respectability and comfort.

Elko Encampment No. 9. I. O. O. F. has made arrangements to give a grand ball on Christmas night, December 25, 1879.

## OUR SWEDEN LETTER.

Our Regular Correspondence of Sept. 20th 1879.  
Though Sweden is the greater member of the Scandinavian Union, and is somewhat unfairly eclipsed by her Norwegian brother. I myself, till I came here, held the charms of Sweden in small esteem, compared with the floods and mountains of Norway. But in Autumn tour here has changed my opinion. I heard before I came that Sweden was a poor country—poor in natural charms, poor in resources, poor in enterprise, that her people were improvident, drunken and superstitious; that, in short, you had only to scratch her civilization and you found a mere medieval barbarism. I can now say that hardly any of these statements was founded on anything like fact. As regards the

**NATURAL BEAUTY.**  
I need only point to the Froilhalta falls, when a great river rushes down a long series of cataracts between pine-clad hills, to the many lakes, such as Malax, set with islets whose trees kiss the water; to the quiet beauty of Southern Sweden, with its streams and meadows and red-brown houses, backed by woods of oak and beech and silver birch. All that Sweden wants to make it perfect is mountains. But the beauties she has are so set off by the marvellous purity and brightness of her atmosphere, as clear as that of Upper Egypt; that even prosaic things seem beautiful to the traveller. Then the people are as bright and as pleasant as the air. The Dan pass you with a nod and a word of welcome, the women with a smile. If you ask the way in any of the towns, they will answer in English more of less pure, and turn out of their course to take you to the place you seek. Nothing pleases them more than to treat you to their Swedish punch, and they cry "Schole!" as they drink to give you welcome in their kindly Swedish way. Of course

**THE WHOLE COUNTRY**  
Is more or less poor. That is a natural consequence of its latitude and its physical conformation. Four-sevenths of its area is covered with forests. Another seventh is occupied by lakes and rivers. Even in the open spaces the granite constantly crops up and defies all husbandry. Only one-seventh part is cultivated soil. There are mines of iron and copper, and Swedish iron is the best the world produces. There are coal mines which are now worked at a profit. But no country, even with resources a hundred fold greater, could be rich which is frost-bound and mostly covered with snow from October to April every year. "What do you do in winter?" I asked of a steamer-owner the other day. "We lie up," was the answer. "Why don't you take to a winter trade?" I got the significant reply, "Most other trades are forced to lie up too." Of course, a country which is thus driven to hibernation like a certain class of animals cannot be otherwise than a poor country. I was not surprised to hear at Gothenburg that the number of

**EMIGRANTS TO AMERICA**  
This year from that port amounted to 9,000. But in another sense Sweden is by no means poor. I have seen in the last three weeks at least a dozen small towns. Each had its school-house, its church, its newspaper, and most of them had their public garden; the streets were paved and lighted with oil lamps swung across as they were in old Paris; the houses, though mostly of wood, were in trim and neat; no broken windows, or dilapidated walls, or heaps of refuse offending the eye as they do in English country districts. The people were as neat as their houses. I have not seen half-a-dozen beggars since I have been in the country. Even in the capital, where misery as well as wealth generally congregates, I saw no signs of poverty, while a

**CROWDED OPERA HOUSE.**  
overflowing café, and brilliant shop betokened an easy opulence. In short there is a general level of comfort in Sweden without any violent contrasts. Perhaps some explanation is to be found in the fact that Sweden is not one of the great powers of the world. She takes a low place in the councils of the nations. But her army, and navy cost her only a trifle; her taxes don't fight and her national debt trifling (\$50,000,000), and has been solely employed in the construction of railroads. Finally, all her children go to school, and over 90 per cent. of her people can read and write. There are superstitions in the country places, but they mostly come of the noble North mythology. Children whose imaginations are fed on such stories as that of "Baldur the Beautiful" may grow up with odd fancies, but I would not for all that banish such tales from the nursery.

**THE POLICE OF THE LONDON POLICE** per head is as nothing compared to that of New York. In the latter city the police receive \$100 per man per month; in the former only \$40. Yet, it is claimed the work is more efficiently performed in London. The New York police number 38,341; to the population 10,477 to a population of 4,534,040. The London force is now in its fiftieth year. When Sir Robert Peel established it, the institution was denounced as inquisitorial and an English savoring of domiciliary visits and the spy system. The members received the name of Peeler's Ireland, as a left-handed compliment to the statesman who was their original inventor.

**Boston Herald.**—Most persons in this country, except the political bunnymen, who get a precarious livelihood out of annually contested elections of Governors and Representatives and Senators of State Legislatures which are in favor of biennially-elected Governors and Legislatures, which are to hold only biennial sessions. A session of Congress once in two years, which should expire on a given date by strict limitation would cause the people at large to breathe a sigh of relief long and deep.

The Baltimore American entertains hopes of a revival of the Republican party in the South. It says:—"Recent trustworthy advice from South Carolina and Texas report serious dissensions among the Democrats of both States that may prove a powerful force for party disintegration. In Texas there is every prospect that two independents pledged not to act with the Democrats will be elected to the next Congress; and in South Carolina there seems to be no doubt that the Republicans will effect a perfect organization during the coming year."

The Providence (R. I.) Press, in an article on the political outlook for 1880, says:—"The army of malcontents is very great throughout the Union. It includes elements of no diverging tendency that no statesman can possibly unite them. There are the greenbackers of Maine and the workmen of California, both equally anxious for a change. Their strongest brethren are in Ohio and in the great cities of the West, especially in Chicago, Cincinnati, St. Louis, Toledo and Indianapolis. Then there are the millions of unattached voters, who always favor conservative reforms without caring much for party names and machine methods. Finally, the reformers proper are very strong now, and begin to make themselves felt, especially in the East, in the Northwest and in Georgia. But they are not yet prepared to take the field with candidates of their own. It is therefore impossible to make close predictions as to the national contest of 1880."

In noticing the fact that the Sacramento Savings Bank sues Dr. H. J. Glenn for the recovery of the sum of \$200,000, and foreclosure of mortgage, the Colusa Sun says:—"we understand that this complaint was filed simply to keep the note from being outlawed, and that another was not given because this will be paid off as soon as the Doctor sells some wheat. This action is entirely friendly, and there is a perfect understanding between the parties." It will take a healthy wheat crop to pay off \$200,000, but the Doctor is credited with having raised a crop this season that he can sell for \$2,000,000.

It is understood that subscriptions to build the extension of the Denver and Rio Grande railway are at once to be utilized. The conflict in relation to the right of way to Leadville through the Grand canyon of the Arkansas will be disposed of this month, as the case is ready for submission to the court. The Rio Grande Company expects to complete the line to Leadville at an early day thereafter.

It is stated that Mr. Tilden has purchased Robert Bonner's interest in the New York Times for \$210,000.

## EUREKA CONSOLIDATED.

The annual meeting of the Eureka Consolidated Mining Company was held Monday afternoon and the following trustees and officers were elected: 42,563 shares were represented: F. Lotan, President; S. Heydenfeldt, Vice President; Directors—J. H. Robinson, Robert Zeile, Samuel Hart, W. W. Taylor, Secretary; H. Donnelly, Superintendent. The Secretary's report showed that the total receipts for the year were \$9,569,435 00; disbursements, not including dividends, \$1,205,735 65. The Superintendent reports that during the past year 69,834 tons of ore have been extracted from different levels of the mine, as follows: Seventh level, 340 tons; eighth level, 33,900 tons; ninth level, 5,950 tons; tenth level, 14,889 tons; eleventh level, 14,991 tons; twelfth level, 4,092 tons; 68,334 tons have been reduced at the company's furnaces. No estimate can be made of the quality of the ore remaining in the mine. The incline has been sunk 250 feet, making a total depth from the surface of 1,230 feet. About 550 feet of winzes and upraises have been made and 6,092 feet of drifts run. The thirteenth and fourteenth levels have been opened and partially prospected, but no ore has yet been found in a paying quantity. There is still a large portion of the mine unprospected between the ninth and fourteenth levels, east of the incline, in which, I think, ore may be found. The machinery in the mill has been recently repaired and is now in first-class condition. I would respectfully call your attention to the necessity of sinking a new shaft, as the mine cannot be profitably worked any deeper through the present openings.

## NOTICE.

IN THE DISTRICT COURT OF THE SECOND JUDICIAL DISTRICT, State of Nevada, County of Washoe.  
In the matter of the estate of R. H. CROCKER, deceased. Pursuant to an order of said Court, made on the 21st day of October, A. D. 1879, notice is hereby given that Saturday, the first day of November, A. D. 1879, at one o'clock P. M. of said day, and at the Court Room of said Court at the Court House in the town of Reno, Washoe County, State of Nevada, have been appointed as the time and place for proving the Will of said R. H. Crocker, deceased, and for hearing the application of James P. Kinhead, J. M. Jones and Phillip Reese, for the issuance of their Letters Testamentary, when and where any person interested may appear and contest the same. Dated at Reno, N. V., October 22, 1879.

## New Postal Card.

The new two-cent postal card has made its appearance. It has two stamps—one at each end—and spaces for two messages. The sender occupies one of these and the return correspondent the other. One stamp is cancelled at the office from which it is sent, and the other in the office from which it is returned. The cards will soon be in general circulation.

## Grant.

A well known citizen suggests that Reno should welcome Grant—that the whistles blow and bells ring, and that the school children in a body meet him at the depot, where all others, old and young can congregate, and take a look at and shake him by the hand. In this way it is believed the General himself would be well pleased.

## The New School House.

Benham is doing good work on the new school house. The basement and first story are both done, and the masons are at work on the second story. If this fine weather continues Benham will have his job completed before the contract time.

Our reporter was informed by a horse man the other day that several of the purses won at the recent State Fair at Reno remain unpaid. That cannot be said of Carson.—[Tribune.]

Your reporter was misinformed. The Reno Fair has paid every purse, premium, and every other debt contracted.

"Of my existence," said a young printer to his sweetheart, "give me an—" She made a—at him, and struck her—"between his I's. "Such an outrage," said Faust, "is without a H."

Bob Hoy has the "boss" buggy. He purchased the one from Harry Bernard which took the premium at the late Fair. He don't need any girl to ride with him now.

The "Sagebrush Leaves" have been ordered and will be ready for delivery to Reno subscribers in a day or two.

Several Nevada folks went down to the lightning to attend the Grant reception in Sacramento to-day.

A frame blacksmith shop is being erected on the lot south of Winterman-tel's hotel.

After the Board Wednesday afternoon Sierra Nevada was 58 1/2, Union 71, Mexican 64.

## Grant's Arrival.

The best information now at hand is that Gen. Grant will leave San Francisco on Saturday night next, and, if the comes direct, will arrive in Reno at 3 o'clock Sunday afternoon. It is possible, however, that he will leave the train at Truckee, visit Tahoe, and thence to Carson and Virginia. In the latter event he will reach Reno Tuesday evening. If a special train is run from Virginia he will reach here early, but in no event will the arrival of the Great Captain be later than 9 o'clock Tuesday night. Positive information will be published in a day or two.

## The Responsibility of Common Carriers.

For the past two days, the District Court has been occupied with the case of Wm. Evans vs. C. P. R. R. Plaintiff got judgment in the Justice Court, for the value of a chest of tools destroyed in the warehouse by the fire, off March 2d. Yesterday afternoon the defendants were allowed ten days to answer, and the plaintiff ten days to amend complaint.

## Shot At.

Last evening a China boy shot at Ed. Selby with a six-shooter. Several boys were playing the China boy who did not evince a disposition to stand it, and pulling his pistol shot as stated. Ed. was not hit, but the shootist was arrested and will be held to answer. He seemed to be a tough nut and was more anxious about the loss of a watch key than of his arrest.

## Got His Man.

Deputy Sheriff Duto Gray got home last evening, bringing his man Mark Brown with him. As previously indicated he caught up with him at Alturas where Brown was asleep, and when he awoke he found himself handcuffed. Brown will be taken to Storey county for trial.

## Pleasant Party.

Night before last the young friends of Miss Winnie Jackson of Virginia City and Fannie Russell of Reno rushed in upon them and for several hours had a very social time. Lots of fun was had and a general regret was expressed when the time for separating came.

## Theatrical.

John Piper is determined to please our theater-goers. On next Monday and Tuesday evenings he has arranged for Miss Ada Cavendish to play at the theater. She will be supported by T. W. Keane and other first-class actors from the California Theater.

## McFarlin's Shop.

The old shop of J. L. McFarlin has been so much improved by the addition of an upper story, and repairs elsewhere that it now looks like a new two-story building.

## Fell In The Ditch.

Little Freddie Hewitt fell in the Lake Mill ditch last evening, but was rescued in time to prevent a fatal accident.

## To-Night.

Bear in mind the entertainment at the Theater to-night. The ladies have a splendid programme, one deserving of a crowded house.

A lodge of the A. O. U. W. will be organized by R. J. Auld, D. S. M. W. About 30 charter members have signified their intention to join. The meeting will be held in the hall over the Congregational church this evening.

Hazlett, the wandering Jew of the fraternity is in town; he will count the ties between Reno and Virginia to-day.

## LOUISIANA, REPUBLICANS.

The Republicans in some of the Southern States are evidently determined to maintain their party organization, despite the shot-gun and tissue paper policy of late so predominant in the South. The Republicans of Louisiana nominated a free State ticket at New Orleans the other day and adopted the following:

Resolved, That it is the deliberate judgment of this convention that an act of greater injustice to the State of Louisiana and to the Republican party here could not be perpetrated by the National Senate than by depriving this State of its Senate representatives, Hon. William Pitt Kellogg, after his claim to the seat he now occupies, has been already deliberately acted upon; that we do solemnly and earnestly, but most respectfully protest in the name of Louisiana against such contemplated action as a grave violation of principle, and as a proceeding likely to be productive of the most mischievous consequences hereafter;

Also resolutions alluding to the Republican victories in Maine, California, Colorado, Ohio and Iowa assuring success in 1880; thanking President Hayes for acts of fidelity to the party which paved the way to the late splendid Republican victories, and Secretary Sherman for his great services in assisting in the resumption of specie payment.

Barber Snor.—Belz has opened a first class barber shop, with all the latest improvements, in the Wine House. Hot and cold baths, 25 cents. Give him a call.

## LABORER'S WAGES.

The Enterprise boldly charges that the attacks of the Virginia Chronicle on the local railroads of the State is certain to result in making it impossible for poor men to obtain employment in remote sections of the State, and ultimately lead to the reduction of all laborer's wages. It says:

And now the question naturally arises, what all this warfare upon the local railroads of the State means? Except for it, and its continuance along after the Legislature adjourns last Spring, there would now have been completed sixty-five miles of new railroad toward Bodie. It would have been finished to Walker Lake and around the sandy road on the margin of the lake, which it is difficult to team across. All the iron for the road was conditionally bought, and enough to lay several miles as the track was received, and preparations were all made for cutting the ties. The company has already rolling stock enough for the section which it prepared to build this season. With that road completed, to-day there would be work for full four thousand more men in this and adjoining counties than are at work now. Southern freights and fares would be reduced fully one-half to Bodie, Aurora, Candelaria, Belleville, New Boston and Columbus, and a hundred enterprises now dead would be moving with active life. This is so plain a proposition that the dullest man in the community can see it. It has all been killed by the mob spirit which was awakened by the Carson Appeal and Virginia Chronicle, and which is fed on falsehoods daily to keep it warm. There must be some motive for this. The most reasonable explanation is that the intention is to so prescribe the field in which laborers can be employed that a general reduction of the price of labor must follow. Surely, unless heavy bodies of ore are uncovered on the Comstock within the next few months, there will be work here for but a few men. Our contemporary is doing what he can to make it impossible for poor men to obtain employment in the remote districts of the State, and there must be some design in it all. The owners of the local roads can afford to lose their roads, but the poor cannot afford to have their field of labor either cut off or proscribed.

BILLIARD GAME.—A game of billiards for the championship of Lincoln county, was played on Thursday at the Pansen Saloon between A. S. Gould and Louis Sultan. Game—three ball, 25 points. Mr. Gould's highest run was 5; Sultan's 2. Both gentlemen showed great skill in playing. Forty-five innings were played; Gould won by 16 points. Best masse was made by Mr. Gould, and the best cushion shot by Mr. Sultan, which would have done credit to the renowned Dary or Schaeffer. It is rumored that Mr. Gould's friends intend backing him against one of the champion players in the East.—[Record 18th.]

Scott's Dancing Academy, Kimball's Hall. Ladies' and gentlemen's class, Monday and Thursday evenings from 8 to 10; children's class, Saturday afternoon from 2 to 4. Social every Saturday night. Private lessons given at hall or residence. Terms cash in advance. Spectators not allowed. Ladies free; gents 50 cents.

Hurrah for the Davis Vertical Feed Sewing Machine for sale by Osburn & Shoemaker.

The cheapest place in Reno for drugs, medicines, and patent medicines, is at Myers' drug store, two doors west of the Postoffice.

The False Notion.  
Exist in the minds of many otherwise intelligent people as to the requirements of a disordered stomach or liver. The swallowing of nauseous and powerful drugs is the way to encourage, not to cure dyspepsia and liver complaint. Nor can a constipated or otherwise disordered condition of the bowels be remedied by similar treatment. That agreeable and thorough stomachic and aperient, Hostetter's Bitters, which is the reverse of unpleasant, and never produces violent effects, is far preferable to medicines of the class referred to. It infuses new vigor into a failing physique, cheers the mind while it strengthens the body, and institutes a complete reform in the action of the disordered stomach, bowels or liver. Appetite and sleep are both promoted, uterine and kidney affections greatly benefited by its use. It is indeed a comprehensive and meritorious preparation, free from drug backs of any kind.

New carpets, oil cloths, and wall paper, at Isaac Barnett's.

For first-class imported cigars, two for 25 cents, call at John F. Myers' drug store, two doors west of the Postoffice.

Strangers visiting our town during the Fair will do well to call at the Great Eastern IXL if in need of any goods usually kept in dry goods and clothing stores. We guarantee to sell you goods at lower prices than can be bought anywhere in the United States.

The Davis Vertical Feed Sewing Machine is the boss.

Now is Your Time.—The Great Eastern IXL is closing out their entire stock of matting and carpets at New York cost. Call early and you surely will get a good bargain.

If you want your watch repaired to give satisfaction go to Davidson's jewelry store, two doors west of Postoffice.

**SUMMONS.**

**IN THE DISTRICT COURT OF THE SECOND**  
**Judicial District of the State of Nevada, in**  
**and for the county of Washoe.**

The State of Nevada sends to HARRY NOLAN,  
 Greeting. You are hereby required to appear in  
 an action commenced against you as defendant  
 by Harry N. Nolan, in the District  
 Court of the Second Judicial District, in and  
 for the county of Washoe, State of Nevada, and  
 answer the complaint therein within ten days  
 after the service on you of this Summons (exclu  
 sive of the day of service), if served in said  
 county, or twenty days, if served out of said  
 county, but within said District, and in all  
 other cases forty days; or judgment by default  
 will be taken against you according to the prayer  
 of said complaint. The said action is brought  
 to recover a decree of this Court annulling the  
 bonds of matrimony now existing between you  
 and plaintiff, that she have the custody of the  
 two infant children, the issue of said marriage  
 upon the grounds set forth in the complaint on  
 file, to-wit: That since your marriage you have  
 continually cruelly treated her and that since  
 your marriage you have contracted habitual  
 drunkenness by which you have failed to provide  
 your part of the support of the family, all of  
 which will more fully appear from the complaint  
 which is now on file in the office of the Clerk of  
 said Court at Reno, in said county.

And you are further notified, that if you fail to  
 appear and answer said complaint the said plain  
 tiff will apply to the Court for the relief de  
 manded.

In testimony whereof, I, Mark Parish,  
 have hereunto set my hand and affixed  
 the seal of said Court this third day  
 of September, 1879.

**MARK PARISH,**  
 Clerk of the District Court of the Second Ju  
 dicial District, Nevada, in and for Washoe  
 County.

 Notice is hereby given that at a meeting of the  
 Board of Trustees, of the Southern Nevada  
 Mining Company held on the 15th day of  
 October, 1879, an assessment (No. 1) of 10  
 cents per share was levied upon each share of  
 the capital stock of the corporation, payable im  
 mediately in gold coin to the secretary.

Any stock upon which this assessment shall  
 remain unpaid Nov. 15th, 1879, will be de  
 clared delinquent and advertised for sale at public  
 auction, and unless payment is made before will be  
 sold by the Secretary at the Reno Savings Bank on  
 Monday, December 16th, 1879, at 3 o'clock P. M.,

 he undertakes and fails to cure.

**MIDDLE-AGED MEN.**

There are many at the age of thirty to sixty  
 who are troubled with too frequent ejaculations  
 of the bladder, often accompanied by a slight  
 smarting or burning sensation, and a weakening  
 of the system in a manner the patient cannot  
 account for. On examining the urinary deposits  
 aropy sediment will often be found and some  
 times small particles of albumen will appear, or  
 the color will be of a thin milky hue, again  
 changing to a dark and torpid appearance.  
 There are many men who die of this difficulty  
 ignorant of the cause, which in the second stage  
 of seminal weakness Dr. S. will guarantee a  
 perfect cure in all such cases and a healthy  
 restoration of the genital urinary organs.
